

We DO NOT provide sunscreen for participants as it is a medication and some participants may have allergies to some ingredients in certain sunscreens. However, we STRONGLY recommend that each child bring their own sunscreen because we are outside a lot of the day. We HIGHLY recommend the spray on sunscreen. We have a large group of campers and it is faster if we can spray them down. Please label sunscreen on the bottom. We will NOT allow the children to share sunscreen (unless siblings).

I, _____, authorize the MCCS Summer Camp Staff/volunteers permission to apply sunscreen on my child, _____, as needed. This permission slip will be in effect until the summer program has ended or until I have submitted a written request that sunscreen is no longer to be applied to my child.

If you do NOT bring sunscreen your child will NOT have sunscreen.
